The Book of Leadership

'Full of seriously good leadership wisdom - a must read for those who aspire to greatness' Richard Koch, bestselling author of *The 80/20 Principle* 'One of the most stimulating books to read on leadership' Philip Kotler, Professor of International Marketing at the Kellogg School of Management 'Loaded with practical, thought-provoking ideas on leadership that can profoundly affect your life' Brian Tracy, bestselling author of *How the Best Leaders Lead* and *Eat That Frog!* Have you ever wondered what characteristics are shared by successful business leaders? Have you ever asked yourself what it is that they do differently which makes them and their organisations stand out from the crowd? And what can you learn from them to ensure your own success? If so, *The Book of Leadership* is for you. Anthony Gell has conducted interviews with some of the most successful CEOs, entrepreneurs and business thinkers in the world, including Sir Terry Leahy, former CEO of Tesco, Richard Reed, founder of innocent drinks, Olaf Swantee, CEO of EE and Daniel Goleman, author of the bestselling *Emotional Intelligence*. Now for the first time, he is bringing together hours of exclusive interview footage into a single resource for anybody looking to improve their leadership skills. In *The Book of Leadership* he combines his own experiences as a CEO with those of the leaders he has interviewed to provide insights and advice in three core areas: * Part 1 looks at leaders as individuals and reveals the personal habits and attributes that have laid the foundations for their success. * Part 2 focuses on what it takes to build and motivate a world class team * Part 3 goes beyond team leadership to identify how the habits of effective leadership are carried through on a larger scale in organisations.

Tangram Cat

A boy plays with tangram. He uses the pieces to lay a cat - a wonderful cat of course; you can leave that up to Martijn van der Linden. But the cat feels lonely... Suddenly I understood the cat. 'You want someone to play with!' I said. The cat still didn't say anything. But I knew I was right. Now tangram isn't easy. The boy thinks he's laying down a new cat, but it turns out to be a dog, which chases after the cat. A new try turns out to be a crocodile - not what you would call a nice friend! The cat has to put up with a lot before the boy gets a really good idea. He lays down himself! Now they can play together. Artist couple Martijn and Maranke constantly reinvent themselves. In *Tangram Cat*, they surpass themselves yet again. All pictures in the book can be made with the tangram game that is included at the back.

Old Path White Clouds presents the life and teachings of Gautama Buddha. Drawn directly from 24 Pali, Sanskrit, and Chinese sources, and retold by Thich Nhat Hanh in his inimitably beautiful style, this book traces the Buddha's life slowly and gently over the course of 80 years, partly through the eyes of Svasti, the buffalo boy, and partly through the eyes of the Buddha himself. *Old Path White Clouds* is destined to become a classic of religious literature. Thich Nhat Hanh is a Vietnamese Buddhist monk. His life long efforts to generate peace and reconciliation moved Martin Luther King, Jr. to nominate him for the Nobel Peace Prize in 1967. He is the founder of Van Hanh Buddhist University in Saigon, and has taught at Columbia

University and the Sorbonne. He is the author of *Being Peace*, *The Miracle of Mindfulness*, *Peace Is Every Step*, and 75 other books. I have not avoided including the various difficulties the Buddha encountered, both from his own disciples and in relation to the wider society. If the Buddha appears in this book as a man close to us, it is partly due to recounting such difficulties. --from the author's afterword

The mega-bestselling novel that made Jeffrey Archer a star, *Kane and Abel*, “a sprawling blockbuster!”—Publishers Weekly **TWO STRANGERS BORN WORLDS APART. ONE DESTINY THAT WOULD DEFINE THEM BOTH...** William Lowell Kane and Abel Rosnovski, one the son of a Boston millionaire, the other a penniless Polish immigrant—born on the same day near the turn of the century on opposite sides of the world—are brought together by fate and the quest of a dream. Two men—ambitious, powerful, ruthless—are locked in a relentless struggle to build an empire, fueled by their all-consuming hatred. Over sixty years and three generations, through war, marriage, fortune, and disaster, Kane and Abel battle for the success and triumph that only one man can have. “Archer is a master entertainer.”—Time

What the world can learn from Israel's meteoric economic success. *Start-Up Nation* addresses the trillion dollar question: How is it that Israel -- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the “Israel effect”

The Annals of Tennessee to the End of the Eighteenth Century

ONE OF WASHINGTON POST'S NOTABLE NONFICTION BOOKS OF THE YEAR A bracingly honest exploration of why there are still so few women in STEM fields—“beautifully written and full of important insights” (Washington Post). In 2005, when Lawrence Summers, then president of Harvard, asked why so few women, even today, achieve tenured positions in the hard sciences, Eileen Pollack set out to find the answer. A successful fiction writer, Pollack had grown up in the 1960s and ’70s dreaming of a career as a theoretical astrophysicist. Denied the chance to take advanced courses in science and math, she nonetheless made her way to Yale. There, despite finding herself far behind the men in her classes, she went on to graduate summa cum laude, with honors, as one of the university’s first two women to earn a bachelor of science degree in physics. And yet, isolated, lacking in confidence, starved for encouragement, she abandoned her ambition to become a physicist. Years later, spurred by the suggestion that innate differences in scientific and mathematical aptitude might account for the dearth of tenured female faculty at Summer’s institution, Pollack thought back on her own experiences and wondered what, if anything, had changed in the intervening decades. Based on six years interviewing her former teachers and classmates, as well as dozens of other women who had dropped out before completing their degrees in science or found their careers less rewarding than they had hoped, *The Only Woman in the Room* is a bracingly honest, no-holds-barred examination of the social, interpersonal, and institutional barriers confronting women—and minorities—in the STEM fields. This frankly personal and informed book reflects on women’s experiences in a way that simple data can’t, documenting not only the more blatant bias of another era but all the subtle disincentives women in the sciences still face. *The Only Woman in the Room* shows us the struggles women in the sciences have been hesitant to admit, and provides hope for changing attitudes and behaviors in ways that could bring far more women into fields in which even today they remain seriously underrepresented.

The Vampire Tarot ties the tales and mythic figures associated with the vampire legend to the equally iconographic figures and forms of the tarot. This book explores the history of the vampire starting with Bram Stoker's classic 1897 novel, *Dracula*, as well as those writings that inspired Stoker and the vampire lore that derived from it. Stoker and his most famous work were both closely tied to the classic Rider-Waite-Coleman tarot. Now, author-illustrator Robert M. Place brings these two mythic traditions together with this extensively researched book that guides the reader through the subtleties and parallels within The Vampire Tarot, providing a guide for getting the most out of reading. Sure to delight not only tarot devotees but the general fan of the vampire mythos as well.

A riveting, deeply personal account of history in the making—from the president who inspired us to believe in the power of democracy #1 NEW YORK TIMES BESTSELLER • NAACP IMAGE AWARD NOMINEE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND PEOPLE NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Jennifer Szalai, The New York Times • NPR • The Guardian • Slate • Vox • The Economist • Marie Claire In the stirring first volume of his presidential memoirs, Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of the first term of his historic presidency—a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation’s highest office. Reflecting on the presidency, he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune’s Spear, which leads to the death of Osama bin Laden. *A Promised Land* is extraordinarily intimate and introspective—the story of one man’s bet with history, the faith of a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of “hope and change,” and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama’s conviction that democracy is not a gift from on high but something founded on empathy and common understanding and built together, day by day.

From the bestselling author of *The Monk Who Sold His Ferrari* A chance encounter following a near-death experience sends Jack Valentine on a paradigm-shifting quest to understand the true meaning of life and find his most authentic self Jack Valentine seemed to have it all. He made good money as an ad man and looked good doing it. He had a hot apartment, cool friends, even a slick car—at least until the hectic Monday morning a truck smashed into it, sending the critically injured Jack to the hospital. Everything happens for a reason, though, and Jack's reason reveals itself in the silver-haired cancer patient who becomes his roommate one evening. The elderly man, Cal, shares his life story—one not dissimilar to Jack's—of material wealth masking a gaping hole within. Cal ultimately found salvation through philosophy (“the love of wisdom”), and now offers to help Jack by prepping the younger man for the Final Questions we all must face: Have I lived wisely? Have I loved well? Have I served greatly? Presenting Jack with three plane tickets, each accompanied by a map marked with a red X, Cal sends Jack to meet with three great teachers, each of whom will help Jack answer one of the Final Questions—just as they once helped Cal. First, in Rome, Jack will meet “the Saint.” Then a haunted beach in Hawaii introduces him to “the Surfer.” And finally the grandeur of New York City sets the stage for his last encounter: with “the CEO.” Along the way, Jack will learn to do his interior work, discover that our negative traits offer gateways to higher versions of ourselves, and understand that figuring things out in your head can distract you from the powerful whispers of your heart. Join Jack on his journey and step into the you that you were always meant to be.

At the intersection of literary, cultural, and postcolonial studies, this volume looks at French perceptions of 'Indochina' as they are conveyed through a variety of media including cinema, literature, art, and historical or

anthropological writings. The volume is long awaited, as France's memory of 'Indochina' is understudied compared to its relationship with its former colonies in West and North Africa. The book has contemporary urgency as the makeup of France's immigrant population changes and grows to include Vietnamese, Cambodian, and Laotian populations.

In the world of thirteen-year-old girls, everything's fine—at least on the surface. Isabelle Lee is a typical, wisecracking, middle-of-the-pack girl who just happens to be dealing with some big issues. Her father has died and no one—especially her mother—wants to talk about it. Meanwhile, Isabelle's sister, who “used to be nine and charming,” has messed everything up by ratting Isabelle out to their mom about her eating disorder. At school, there's Mr. Minx, the self-important (but really not bad) English teacher; Ashley Barnum, the prettiest girl around; and the lunchroom, where tables are turf in an all-eyes-open battle for social status. Isabelle has measured the distance to being cool and she thinks it's long shiny hair, a toothpaste smile, and perfectly broken-in size-zero jeans. Perfect is the story of one girl's attempt to cope with loss, define true friendship, and figure out the difference between appearances and reality.

This book focuses on the political and commercial relations between the Dutch East India Company (VOC) and the Vietnamese kingdom of Tonkin from 1637 until the beginning of the eighteenth century. The VOC exported silk and silk piece-goods from Tonkin to Japan. The author focuses on various aspects of the mutual relationship between the VOC and Tonkin, and how this fitted into the larger picture of the intra-Asian trade. The book reveals the vicissitudes in political relations, and the varying trends in the VOC's import (silver and copper) and export (silk, ceramics, musk, and gold). While examining a great deal of detailed archival materials, the author evaluates Dutch influence on Tonkin's feudal society and economy. The book also offers a fascinating sketch of how the Vietnamese trading elite maximized their own profits by dealing with various western tradesmen, including the English and French.
